MARBLE & GRANITE

KITCHEN WORKTOP  
COLLECTION

## Caterham Marble and Granite are delighted to introduce our collection of quartz surfaces.

Our collection has been curated in partnership with Cosentino – the manufacturers of Silestone – and it offers you considerable savings over branded products, whilst retaining all the qualities of using one of the world’s largest suppliers of quartz.

In recent years, the popularity of quartz kitchen worktops has grown significantly. As a leading fabricator for all the major quartz brands, we have been at the forefront of this upturn. We source our materials in large quantities direct from the factory, enabling us to pass on the volume discounts that we receive onto our customers.

We have brought together this broad range of quartz as we believe it presents you with the most popular colours, at the best possible value. From the ever-popular sparkling glitterstone, to the classic veined materials White Lake and Ocean White, we are confident that you’ll find a colour in our collection that meets your requirements.
