MARBLE & GRANITE

MARBLE, GRANITE AND QUARTZ

KITCHEN WORKTOPS

for home builders and developers

Experts in marble, granite and quartz

As an experienced supplier to the home building industry, we understand the importance of having a knowledgeable, reliable supplier that you can depend on.

Over the years we have forged partnerships with many regional and national home builders, providing our services on both small and large new build developments. Each time offering bespoke packages to suit the scheme in hand; from starter homes right up to high spec, luxury homes and city apartments.

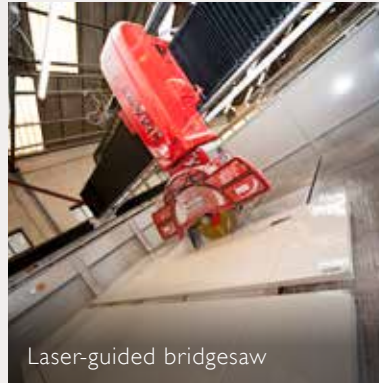

We can offer the complete package of design, manufacture, supply and installation of quality marble, granite or quartz kitchen worktops. All work is carried out professionally and efficiently by our experienced, highly trained and fully accredited workforce.

60 yrs
experience

“over half a century of working with stone, marble and granite”

Extensive stock holding

We take great pride in ensuring we always have the right equipment to handle even the largest or most complex of jobs.

With the most advanced equipment in the business, our highly experienced specialist workforce are fully trained to operate the latest machinery.

Our recently expanded 50,000sqft factory has numerous CNC machines, laser-guided bridgesaws and edge polishing machines, each one operated by highly skilled craftsmen.

big enough to cope

“amongst the largest in our field in the UK”

Ocean White kitchen worktop

Worktops for kitchens & bathrooms

Our extensive choice of marble, granite and quartz can be a surprisingly affordable alternative to wooden and laminated surfaces. We always carry a selection of contract materials that are ideal for trade customers looking for a quality, cost-effective solution.

We have vast experience from many years of supplying, templating and fitting work surfaces in large developments, as well as the thousands of bespoke individual installs we have completed. Our highly experienced, 60-strong in-house team can efficiently install marble and granite worktops with the utmost accuracy. Supported by the latest precision CNC machinery, we can pre-cut apertures for sinks, hobs and other services to guarantee a smooth install on-site.

Bathroom vanity worktop

The finest suppliers

We source and import the highest quality materials from Italy and around the world on a monthly basis. Thanks to our excellent relationship with the finest suppliers, any material that you need is just a few weeks away.

In addition, we have up to half a million pounds worth of stock available at all times. With such a broad selection of colours, available in both natural and man-made materials, we have something to suit every project.

GOLD FABRICATORS

Developers Range of Colours

We have specially selected a range of quartz to cover the majority of colours that are typically specified by developers.

All of the colours in the range are manufactured by Cosentino, owner of Silestone and the largest stone supplier in the world. Made by a quality European manufacturer at competitive prices, all colours are stocked at our premises. In addition, we can supply many other colours and ranges, please get in touch.
